

Figure 7. Entity-Relationship Diagram: Actual Table Connections

CSUCC Campus ANPR Security Monitoring System - generated from PostgreSQL foreign keys

Solid lines are enforced foreign keys. Dashed orange lines are logical ANPR engine links found in data columns but not enforced by database constraints.

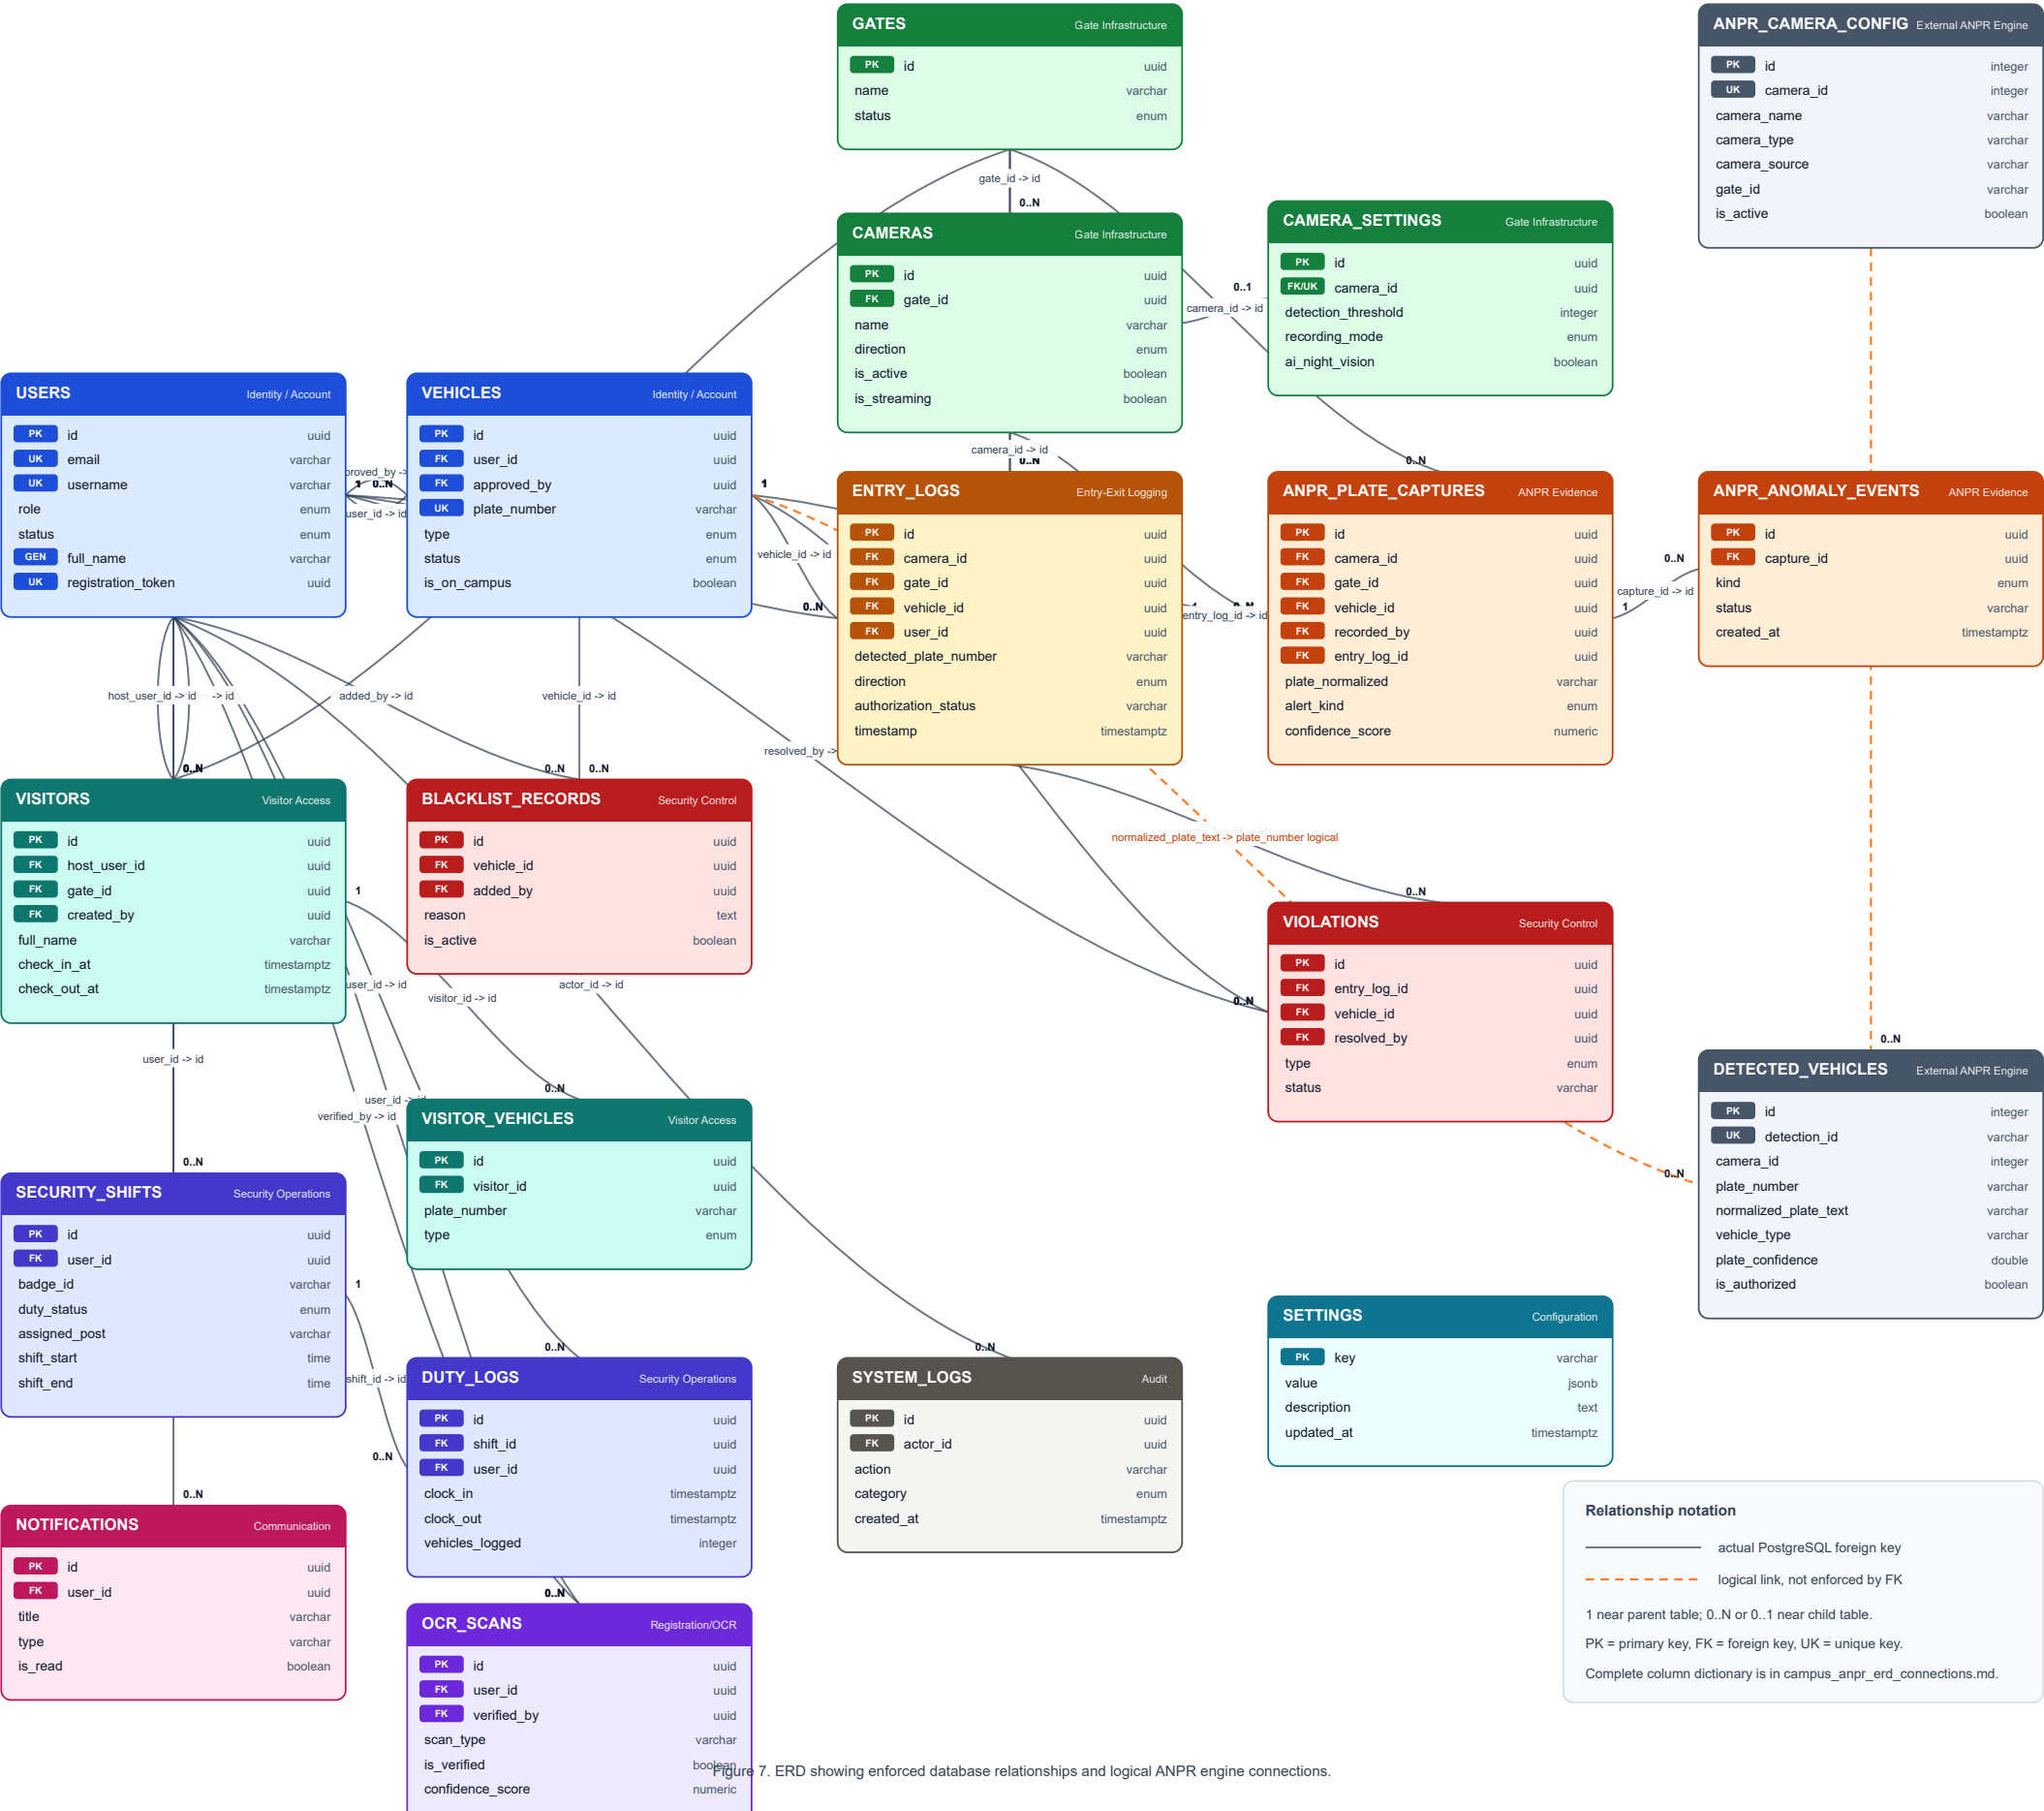

Figure 7. ERD showing enforced database relationships and logical ANPR engine connections.

Generated from PostgreSQL schema: C:\Users\User\Documents\campus_anpr.sql. Solid lines are actual foreign keys; dashed lines are logical ANPR engine references.
